### Is our planet a safe place for animals?

Unfortunately it doesn't seem like it. Thousands of species have become ( die/ **extinct** / disappeared ) and many more are now ( dangerous / danger / **endangered** ). We need to do something fast before it's too late for them.

First, urgent measures should be taken immediately to protect our wildlife. We must forbid the ( destroyed/ destructive/ **destruction** ) of the threatened animal habitats and punish offenders ( where/ which / **who** ) break the laws. Another solution is to organise ( **campaigns** / landfills / oil spills ) to make people aware of the problem and buy fewer products made of materials such as ivory or fur.

Finally, we should create more national parks and conservation areas. This would allow animals to live safely in their natural habitats . ( **But** / Besides / **Therefore** ) , their numbers would increase and species would not die out.
